GUIDE TO THE SUBJECT INDEX

• This subject index covers issues of Workers Vanguard published during 2012, from issue No. 993 (6 January) through No. 1014 (7 December). During this time, WV was published weekly, except skipping three alternate issues in June, July and August, and skipping the last issue in December.

• The fullest listing is by SUBJECT. Subject headings are arranged alphabetically. Entries are listed chronologically with two exceptions: all entries comprising a series are listed together immediately following the first entry of the series; corrections immediately follow the relevant entry. An asterisk (*) after the page location of an entry indicates that a correction follows.

• Entries are listed under subject heads. In some cases, subject heads are broken down into subcategories. These subcategories are listed immediately after the subject head and preceded by a dot (.). The numbers following each entry headline give the issue number, date and page number(s) for the article. Thus: #997, 18 Aug. (2, 3) means the headline of the article, issue No. 997, dated 18 August 2012 beginning on page 2 and continuing on pages 3 and 5.

• No entry is listed twice; refer to cross-references for guidance in locating the subject head for particular articles. Cross-references are of two types: those following the word “see” deal centrally with the subject head; those following the words “see also” are related articles. Subject heads in cross-references are separated by a semicolon, while subcategories of subject heads are separated by a comma. Thus: #997, 18 Aug. (2, 3) = See: Women Under Imperialist Occupation — We Said: Clarification: Why the Soviet Union Intervened in Afghanistan.
